

Detailed results

No preceding questions in the poll are expected to have influenced the results of the questions published here. Response options were presented in random order. The questions, and the response options for each question, are as follows:

Respondents were first asked the following screening question (Screening Question 1):

Do you grow any of your own food?

For example, using herbs from your garden in cooking, eating from a fruit or berry tree in your backyard, eating eggs from pet chickens or maintaining a vegetable patch.
